Your spouse's source(s) of income:

Your estimated financial assets net of related liabilities:

Briefly describe the nature of your financial assets:

"financial assets" means cash, securities or a contract of insurance, a deposit or evidence of deposit that is not a security for the purposes of securities legislation. These financial assets are generally liquid or relatively easy to liquidate. **The value of a purchaser's personal residence would not be included in a calculation of financial assets.**

"related liabilities" means: (i) liabilities incurred or assumed for the purpose of financing the acquisition or ownership of financial assets; or (ii) liabilities that are secured by financial assets.

Your estimated total net assets:

Briefly describe the nature of your net assets:

“net assets” means all of the purchaser’s total assets minus all of the purchaser’s total liabilities, and those of the purchaser’s spouse if the purchaser’s spouse’s total net assets are being included to satisfy category (I) of the accredited investor definition. Accordingly, for the purposes of the net asset test, the calculation of total assets would include the value of a purchaser’s personal residence and the calculation of total liabilities would include the amount of any liability (such as a mortgage) in respect of the purchaser’s personal residence. To calculate a purchaser’s net assets, subtract the purchaser’s total liabilities from the purchaser’s total assets (including real estate). The value attributed to assets should reasonably reflect their estimated fair value. Income tax should be considered a liability if the obligation to pay it is outstanding at the time of the distribution of the security.
